

Brazos Delta Core: BDVC10

Core Description Key

Sediment Grain Size

Clay Dominated			Silt Dominated			Sand Dominated		
		Clay comprises more than two-thirds of sediment			Silt dominates with clay comprising a significant fraction			Sand dominates with clay comprising a significant fraction
C	"Clay"		CSi	"Clayey-Silt"		CSa	"Clayey-Sand"	
		Clay dominates with silt comprising a significant fraction			Silt comprises more than two-thirds of sediment			Sand dominates with silt comprising a significant fraction
SiC	"Silty-Clay"		Si	"Silt"		MSa	"Muddy-Sand"	
		Near equal portions silt and clay with little sand			Near equal portions mud and sand			Gravel comprises more than two-thirds of sediment
		Clay dominates with sand comprising a significant fraction			Silt dominates with sand comprising a significant fraction			Sand comprises more than two-thirds of sediment
SaC	"Sandy-Silt"		SaSi	"Sandy-Silt"		Sa	"Sand"	
								Sand dominates with gravel comprising a significant fraction
						GSa	"Gravelly-Sand"
